

# Jan Bautista

Full Stack Developer / Laravel Developer

## Relevant Experience

### Central Luzon State University

Full-Stack Developer • Aug 2022 - Jun 2025

- Built and maintained full-stack web applications using Laravel, Livewire, Bootstrap, JavaScript, SASS, and MySQL to support the university's research, extension, and administrative processes.
- Worked closely with administrative offices and the MISO team to understand their needs and turn them into practical digital tools that streamlined their workflows.
- Provided regular support and training to faculty and staff, helping them navigate the systems, resolve issues, and confidently use the tools in their daily work.
- Regularly improved and updated system features based on user feedback to ensure alignment with the institution's research and development initiatives.
- Performed regular system checks and security reviews to protect against threats like Remote Code Execution (RCE) attacks and SEO poisoning, making sure everything stayed safe and reliable.

### Wideout

Quality Assurance Specialist • Nov 2020 - Sep 2021

- Ensured developed creatives were pixel-perfect and matched the provided design specifications and client instructions.
- Followed a standardized QA process to review and validate the output of creative developers.
- Tested and debugged web advertisements to ensure functionality, responsiveness, and visual accuracy across major browsers.
- Performed quality checks on creatives in various formats—including image, video, and web (HTML, CSS, JS)—to ensure consistency and quality across platforms.

Creative Developer • Nov 2020 - Sep 2021

- Converted designs into pixel-perfect animated and static web ads using HTML, CSS, and vanilla JavaScript.
- Produced multiple banner sizes (160x600, 300x250, 300x600, 728x90, etc.) for creative ads based on initial designs.
- Designed and created storyboards in Adobe Photoshop to illustrate concepts and animations for web ads.
- Tested and debugged creatives, ensuring cross-browser compatibility.

### Technodream

Web Developer • Feb 2019 - May 2019 • Internship

- Converted daily web designs into pixel-perfect, responsive static web pages using HTML, CSS, and JavaScript.
- Successfully converted 34+ designs into responsive web pages.
- Assisted in migrating pages from an outdated website to a new WordPress template for Turkey Travel Planner, increasing delivery time by 60% and converting up to 20% of the pages.
