Relevant Experience

Globalco

Full-Stack Developer • Aug 2025 - **Present**

- Architected scalable systems using ReactJS, Firebase (Firestore, Auth, Functions, etc.), and Micro-frontend monorepo architecture.
- Developed custom WordPress themes and integrated PHP scripts using a modern HTML/SASS/JS workflow.
- Modernized backend workflows by converting local Python scripts into callable APIs via Cloud Functions.
- Streamlined deployment by designing and implementing CI/CD pipelines using GitHub Actions.
- Collaborated closely with cross-functional teams including developers, data engineers, data scientists, and QA specialists to deliver high-quality, scalable solutions.

Central Luzon State University

Full-Stack Developer • Aug 2022 - Jun 2025

- Engineered web applications using Laravel, Livewire, and MySQL to digitize university research and administrative processes.
- Collaborated with the MISO team to translate complex institutional requirements into streamlined digital tools.
- Hardened system security against RCE attacks and SEO poisoning while performing regular audits and maintenance.
- Facilitated user adoption by providing technical support and training to faculty and staff on new digital workflows.

Wideout

Quality Assurance Specialist • Nov 2020 - Sep 2021

- Executed pixel-perfect QA for creative developers, ensuring strict adherence to design specifications and brand guidelines.
- Performed cross-browser testing and debugging for high-volume web advertisements.

Creative Developer • Nov 2020 - Sep 2021

- Developed animated web ads using HTML, CSS, and Vanilla JavaScript across various industry-standard dimensions.
- Designed storyboards in Adobe Photoshop to conceptualize animation flows and layouts.

Technodream

Web Developer • Feb 2019 - May 2019 • Internship

- Converted 34+ web designs into responsive, static web pages using HTML/CSS/JS.
- Accelerated a major WordPress migration for Turkey Travel Planner, improving delivery speed by 60%.
